Mr Test Survey Test

Recommendation Letter

Summary of your Mortgage Recommendation

Prepared for Mr Test Survey Test, Mr Ashukur Rahamn Likhon & Mr ffff fff
By Mr Mainul Rahat

Dear Mr Test Survey Test, Mr Ashukur Rahamn Likhon & Mr ffff fff,

This letter explains the advice I have given you regarding your mortgage following our recent discussions about your needs and circumstances.

Please take the time to read it carefully, alongside all other documents relating to the mortgage, if you need clarification on anything, please contact me and we can arrange a time to discuss any questions or queries that you have.

During our discussion you asked me to provide advice on your Product Transfer of .

It is important to us that you can access and understand the information that we provide, in the way that is most suitable to you. If you need any extra support to help you understand this letter or require the information in an alternative format, please let me know.

Warm regards,

Mr Mainul Rahat
Mortgage Advisor
Cityplus Network

What have I recommended and why?

I have recommended the following mortgage:

Lender	Initial interest rate, type & period	Repayment method	Mortgage amount (including any added fees)	Mortgage term	Monthly repayment
N/A	N/A	Capital and Interest	£10.00	1 years and 1 months	N/A

Your property can be repossessed if you do not keep up your payments.

What features were recommended and why?

The main features of the mortgage and the reasons for my recommendation are explained in the table below.

Feature	Recommendati on	What does this mean?	Why was this recommended to you?
Lender	N/A	This is the lender who will provide your mortgage.	I have recommended N/A because
Interest Rate Type	Fixed	Your payments will not change during the initial period.	You wanted the certainty of knowing exactly what your monthly payments will be because
Initial interest rate / deal period	The recommended deal period will apply until 22/12/2027	At the end of the initial deal period the interest rate will change to the lender's standard variable rate (SVR). We have given you an example of their current standard variable rate in your mortgage illustration, please note this may differ to the standard variable rate when your deal expires, therefore the cost after expiry could be higher. We recommend you start to review your mortgage deal 6 months in advance of the end date.	We discussed that lenders offer different deals for varying lengths of time and reviewed the options that are available to you. We also discussed your personal circumstances and the future goals & plans that are important in advising what is the most suitable deal period for you. I recommend a period of because
Repayment Method	Capital and Interest	Your mortgage will be repaid by the end of its term, provided you make the required monthly payments when due.	You wanted the certainty of your mortgage being repaid by the end of the term through making your monthly repayments because

Feature	Recommendation	What does this mean?	Why was this recommended to you?
Mortgage Amount	10	This is the total amount borrowed. If fees have been added to the mortgage, they are included within this figure.	
Arrangement Fee		Your mortgage may have fees and charges payable. Please refer to the mortgage illustration for full details.	
Mortgage Term	1 years and 1 months	This is the term over which you will repay back your mortgage.	The term has been recommended because
Early Repayment Charges		The Maximum Early Repayment Charge that could apply is	
Portability			

What else do you need to know?

The following section contains important additional information about the recommendations I have made. Where relevant, it also explains potential risks of the mortgage.

Is there anything else you need to think about?

Protection

Your mortgage is a large financial commitment, please consider how you would be able to manage your mortgage payments if you were no longer able to work due to accident / illness / injury, or the impact of if you were to suffer a critical illness or die during the 1 years and 1 Months mortgage term.

Lasting Power of Attorney (LPOA)

A Lasting Power of Attorney, registered with the appropriate authority, means somebody else can act for you, if you can't act for yourself. If you own a property and have a Lasting Power of Attorney in place I recommend you seek independent legal advice.

Buildings Insurance

It is a condition of the mortgage that you have appropriate and adequate buildings insurance in place. Where you are purchasing a home, the policy should be put in place at exchange of contracts. A copy of the insurance certificate will be required by your solicitor.

We discussed your building insurance requirements.

Wills

Owning a property impacts your overall financial wealth and your wishes for the property upon death should be detailed in a legal will. If you don't have a will, I recommend you speak to a solicitor to create one and keep it updated on a regular basis.

Help us to improve our service

We would love to know what you think about our service. This helps us to better understand our customers and improve the way we work. Test Network will send you an email link to complete a short survey. We appreciate you taking the time to complete this.

Yours sincerely,

Mr Mainul Rahat

If applicable:
This Recommendation Letter is also being sent by email/post to:

Product Transfer

Your current mortgage deal with N/A on N/A. As there are no penalties for changing this mortgage product beyond this date, it allows us to review your options.

These options included:

- Staying on standard variable rate (SVR) %
- Moving to another deal from the lender's product range - known as a product transfer
- Moving your mortgage to a new lender – known as a remortgage

Having reviewed your circumstances and discussed your needs, I then compared the available products, and I recommend a product transfer because

High Loan to Value

The loan-to-value ratio on your mortgage is high. This puts you at greater risk of negative equity if property values fall. Negative equity is when you owe more on the property than it is worth, which can affect your ability to change your mortgage deal. Using a higher deposit can reduce this risk and may give you access to more cost-effective interest rates, which could save you money. High loan-to-value mortgages are also associated with a higher risk of repossession, please consider these risks carefully.
