Recommendation Letter
Summary of your Mortgage Recommendation

Prepared for Mrs Husna Begum & Mr Muhammad Humzah Aadil
By Mr Hemal Patel

Dear Mrs Husna Begum & Mr Muhammad Humzah Aadil,

This letter explains the advice I have given you regarding your mortgage following our recent discussions about your needs and circumstances.

Please take the time to read it carefully, alongside all other documents relating to the mortgage, if you need clarification on anything, please contact me and we can arrange a time to discuss any questions or queries that you have.

During our discussion you asked me to provide advice on your Purchase of 1 Coniston Gardens, Ilford, ENGLAND, IG4 5LU.

It is important to us that you can access and understand the information that we provide, in the way that is most suitable to you. If you need any extra support to help you understand this letter or require the information in an alternative format, please let me know.

Warm regards,

Mr Hemal Patel
Mortgage Advisor
Beneco Financial Services

What have I recommended and why?

I have recommended the following mortgage:

Lender	Initial interest rate, type & period	Repayment method	Mortgage amount (including any added fees)	Mortgage term	Monthly repayment
Stride Up	6.19% Fixed until	Rent Only	£390,000.00	30 years and 0 months	N/A

Your property can be repossessed if you do not keep up your payments.

What features were recommended and why?

The main features of the mortgage and the reasons for my recommendation are explained in the table below.

Feature	Recommendation	What does this mean?	Why was this recommended to you?
Lender	Stride Up	This is the lender who will provide your mortgage.	I have recommended Stride Up because it offers a Shariah-compliant Buy-to-Let Purchase Plan structured in accordance with Islamic principles, ensuring the finance arrangement is free from riba (interest). In addition, StrideUp offers one of the most competitive 5-year fixed rental rates available for your circumstances, together with a 1% product fee and no upfront application fee, resulting in a competitive overall cost of finance. During the 5-year fixed period, you are permitted to make overpayments of up to 10% of the outstanding finance balance each year without incurring an early settlement charge. Following the initial fixed period, you may make additional lump-sum payments without early settlement penalties, subject to a small administrative fee where applicable

Feature	Recommendation	What does this mean?	Why was this recommended to you?
Interest Rate Type	Fixed	Your payments will not change during the initial period.	You wanted the certainty of knowing exactly what your monthly payments will be because you told me that stability in your monthly financial commitments was important to you and you did not want your payments to increase during the initial benefit period. As your objective is to retain the property as a long-term investment and maximise the rental income it generates, having fixed monthly payments will enable you to manage your investment cash flow with greater confidence, forecast your investment returns more accurately, and reduce the risk that future rental rate increases could adversely affect your expected profitability.

Feature	Recommendation	What does this mean?	Why was this recommended to you?
Initial interest rate / deal period	The recommended deal period will apply until N/A	At the end of the initial deal period the interest rate will change to the lender's standard variable rate (SVR). We have given you an example of their current standard variable rate in your mortgage illustration, please note this may differ to the standard variable rate when your deal expires, therefore the cost after expiry could be higher. We recommend you start to review your mortgage deal 6 months in advance of the end date.	We discussed that lenders offer different deals for varying lengths of time and reviewed the options that are available to you. We also discussed your personal circumstances and the future goals & plans that are important in advising what is the most suitable deal period for you. I recommend a period of 5+ Years because I recommend a 5-year fixed rental rate because you told me that long-term payment certainty and stability are important to you. As the property is being purchased as a long-term rental investment, fixing your rental rate for five years allows you to budget with confidence, manage your investment cash flow more effectively, and reduces the risk of increased monthly payments during the initial benefit period. A shorter fixed-rate period was not recommended because it would expose you to the risk of changes in rental rates sooner, potentially increasing your monthly payments and reducing certainty over your investment returns. Although shorter-term products may sometimes offer lower initial rates, they would not meet your preference for longer-term payment stability. A longer fixed-rate period was not recommended because StrideUp does not currently offer a fixed rental rate longer than five years. As the 5-year fixed product is the longest fixed-rate option available, it provides the maximum level of payment certainty currently available while meeting your stated objectives.
Repayment Method	Rent Only		

Feature	Recommendation	What does this mean?	Why was this recommended to you?
Mortgage Amount	390000	This is the total amount borrowed. If fees have been added to the mortgage, they are included within this figure.	Your mortgage is equal to the purchase price of the property, minus your deposit.
Arrangement Fee	3900.00	Your mortgage may have fees and charges payable. Please refer to the mortgage illustration for full details.	Your preference was to pay the arrangement fee up front therefore, no fees were added to the loan
Mortgage Term	30 years and 0 months	This is the term over which you will repay back your mortgage.	The term has been recommended because you both wanted the maximum finance term available to support your long-term Buy-to-Let investment strategy, maximise investment yield by keeping monthly finance payments lower, and maintain long-term ownership of the property. A 30-year term is the maximum finance term currently offered by StrideUp.
Early Repayment Charges	Early repayment charges will apply during your initial rate period. Please see the mortgage illustration I provided for further details.	Charges will apply if you choose to repay all or part of your mortgage before the end of the initial deal period. Please see your mortgage illustration for details of any overpayment allowance. The Maximum Early Repayment Charge that could apply is 11700	It was your preference to have the flexibility to repay the mortgage in part or in full during the initial deal period, without incurring early repayment charges for doing so. You both understand that you may make overpayments of up to 10% of the outstanding finance balance each year without incurring an early repayment charge. If you repay more than 10% during the initial 5-year fixed period, an early repayment charge of 3% in Year 1, 2% in Years 2–3, and 1% in Years 4–5 will apply. No early repayment charges apply after the fixed period. Please refer to the Financial Information Sheet for full details.

Feature	Recommendation	What does this mean?	Why was this recommended to you?
Portability	Your mortgage is not portable	If you move home, you will not be able to transfer the mortgage to a new property, you will need to repay it	I recommended a mortgage which is not portable because This product is not portable due to the provider's interest in the property as part of the Shariah compliant arrangement

What else do you need to know?

The following section contains important additional information about the recommendations I have made. Where relevant, it also explains potential risks of the mortgage.

Is there anything else you need to think about?

Protection

Your mortgage is a large financial commitment, please consider how you would be able to manage your mortgage payments if you were no longer able to work due to accident / illness / injury, or the impact of if you were to suffer a critical illness or die during the 30 years and 0 Months mortgage term.

I recommend you seek advice from a specialist protection advisor.

Lasting Power of Attorney (LPOA)

A Lasting Power of Attorney, registered with the appropriate authority, means somebody else can act for you, if you can't act for yourself. If you own a property and have a Lasting Power of Attorney in place I recommend you seek independent legal advice.

Buildings Insurance

It is a condition of the mortgage that you have appropriate and adequate buildings insurance in place. Where you are purchasing a home, the policy should be put in place at exchange of contracts. A copy of the insurance certificate will be required by your solicitor.

We discussed your building insurance requirements.

I recommend you seek advice from a specialist for this cover.

Wills

Owning a property impacts your overall financial wealth and your wishes for the property upon death should be detailed in a legal will. If you don't have a will, I recommend you speak to a solicitor to create one and keep it updated on a regular basis.

Help us to improve our service

We would love to know what you think about our service. This helps us to better understand our customers and improve the way we work. Beneco Financial Services will send you an email link to complete a short survey. We appreciate you taking the time to complete this.

Yours sincerely,

Mr Hemal Patel
